

EnviRestore Glass Stain Remover

EnviRestore Glass Stain Remover is a restorative cream that removes stubborn stains from glass surfaces.

Description

This product effectively removes what is commonly referred to as stage 1 corrosion as well as stains caused by mineral deposits, including calcium, lime, magnesium, rust, salts, efflorescence and high mineral content tap or well water. This solution also removes damage caused by soap scum, oils, acid rain, adhesives, water repellent overspray and/or leaching, caulking or coating residue, exhaust fumes, everyday grime and buildup, and other stubborn stains from architectural glass surfaces without the use of machinery. This product is an effective preparatory measure when using Presto's **Glass Defender** Series, invisible glass protection.

REVOLUTIONIZING THE BUILDING MAINTENANCE INDUSTRY

Specifications

Advantages

- Environmentally safe
- Non-toxic
- Acid-free
- Removes stubborn stains
- Easily removes oily silane and siloxane waterproofing overspray
- Removes years of buildup
- No greasy residue
- Water-based
- Cost-effective
- Easy to use and cleanup
- Effectively restores glass
- Great prep for Glass Defender Series products
- Long shelf life (3 years)

Limitations

This product only removes stains caused by foreign materials from the glass surface and will not repair damages that have affected the surface of the glass itself.

Product may cause minor scratching that is only seen when glass is viewed in direct sunlight. To avoid this, use Presto's **Glass ReSurfacer** System to remove all types of glass stains and damage with optically distortion-free results.

Intended Use

This product is designed for use on plate or tempered glass surfaces.

Coverage Rates

250 to 500 sq. ft. per quart depending on level of staining

Necessary Equipment

- Gloves and goggles
- White, non-abrasive pad
- Microfiber towel

Surface Preparation

Clean surface with clean water, preferably de-ionized, prior to use. Remove any dirt or sand which may scratch the glass. It is extremely important that the application pad or towel used with this product is not contaminated with abrasives. Always test in a small, inconspicuous area in direct sunlight prior to use.

Application

Apply this product to previously cleaned surface with a sponge, white, non-abrasive pad or a microfiber towel. Apply a small amount of product to the applicator. Agitate the product on the surface until the stain is removed, wiping away any excess residue. Do not use excessive pressure or minor scratching can occur. To

remove oily stains, apply product and allow the product residue to dry to a white powder. Remove the white material by using a dry towel or white, non-abrasive pad. Do not inhale any dry dust from this product. In some instances, a second or third application may be required.

If Presto's Glass Defender Series will be applied after the restoration process, DO NOT use oily detergents containing surfactants to clean the surface.

Precautions

Do not use a motorized polisher with this product. Even though this product is designed to be an employee-safe alternative, we recommended limiting bodily contact with any cleaning product.

This product may cause minor scratching when too much pressure is applied or when used in conjunction with aggressive application pads or a motorized polisher.

Recommendations

Following restoration, we recommend the use of Presto's **Glass Defender MD** or **Glass Defender HD** to seal the glass and preserve the finish for up to 20 years.

Warranties

The information provided by Presto for the safe and effective use of this product, and all of our products, is believed to be good and accurate. However, due to the many different possible applications of this product,

careful considerations should be made when selecting its suitability for each surface.

The information provided should never be substituted for individual testing to ensure the product's compatibility with each surface intended for use. The purchaser shall assume all responsibility for determining the suitability of this product. When used as intended, this product will perform as stated. No other warranty can be made for this product, verbally or written.

Presto warrants this product to be free from defects. In the event this product is found to be defective, we will provide a sufficient amount of product to replace the defective product.

About Presto

Presto Restoration Products was created to implement higher performing technology, safer practices and products that provide a better return on investment to the building restoration and maintenance industry. Our expertise is researching and developing products and techniques to restore and preserve the magnificence of high-rise buildings built with architectural glass, metal and stone surfaces.

Presto strives to design products that comply with the Green Building Standards Act, which promotes better environmental standards for the construction, rehabilitation and maintenance of buildings:

- Improve energy efficiency and increase generation of energy through renewable and clean energy technologies
- Increase the demand for environmentally preferable building materials, finishes and furnishings

- Improve the environment by decreasing the discharge of pollutants from buildings
- Create industry and public awareness of new technologies that can improve the quality of life for building occupants
- Improve the health and productivity of building occupants by meeting advanced criteria for indoor environmental quality

At Presto, we have mastered the art of balancing quality and compliance through our dedication to Building Product Synergy for a safer, greener environment.

Presto continues to perform extensive research, development and testing on various methods of commercial exterior restoration and preservation.
