

# EnviRestore Metal Stain Remover

## Architectural Metal Restoration Product

EnviRestore Metal Stain Remover is designed to safely and efficiently remove stains from anodized aluminum and aluminum composite materials while simultaneously installing a temporary surface protection and leaving an enriched appearance. In some cases, this product may also be used on additional surfaces, such as glass and polished stone.

### Description

This product effectively removes what is commonly referred to as stage 1 corrosion as well as stains caused by mineral deposits, including calcium, lime, magnesium, rust, salts, efflorescence, high mineral content tap or well water. This solution also removes damage caused by soap scum, oils, acid rain, adhesive stains, water repellent overspray and/or leaching, caulking or coating residue, exhaust fumes, everyday grime and buildup and other stubborn stains from architectural surfaces without the use of machinery. For higher performance restoration, use **Metal ReSurfacer** and Presto's **Metal Protector**.

REVOLUTIONIZING THE BUILDING MAINTENANCE INDUSTRY

### Specifications

#### Advantages

- Restores and adds protection simultaneously
- Environmentally safe
- User-friendly
- Acid-free
- Removes stubborn stains
- Easily removes oily silane and siloxane waterproofing overspray
- No greasy residue
- Water-based
- Cost-effective
- Easy to use and cleanup
- Removes years of buildup
- Long shelf life (3 years)
- Restores anodized aluminum and aluminum composite materials
- Versatile product can be used on multiple surfaces
- Fights grease and grime

#### Intended Use

This product is formulated for use on specialty architectural surfaces such as aluminum composite panels, anodized aluminum, painted surfaces and other exterior architectural surfaces.

#### Coverage Rates

200 to 500 sq. ft. per quart depending on level of staining

#### Necessary Equipment

- Gloves and goggles
- EnviRestore Foam Pad
- Backer Pad
- White, non-abrasive pad
- Microfiber Towel

#### Surface Preparation

Clean surface with water, preferably de-ionized, prior to use. Remove dirt or sand which may scratch the surface. It is extremely important that the application pad or towel used with this product is not contaminated with abrasives. Always test in a small, inconspicuous area which may be viewed in direct sunlight prior to use.

#### Application

Apply this product to previously cleaned surfaces with the EnviRestore Foam Pad, a microfiber towel, soft sponge, or a white non-abrasive pad. Apply a small amount of product to the applicator. Lightly agitate the product in a circular motion until the stain is removed, wiping away any excess residue. Do not inhale any dry dust from this product.

## Application (continued)

In some instances, a second or third application may be required.

This product may be used with a motorized polisher or random orbital sander in conjunction with the **EnviRestore MSR Foam Pad**. This foam pad is designed for use with softer materials like aluminum composite materials.

If stains are still present using this product, try using Presto's **Metal ReSurfacer**, which is a more aggressive product, with a motorized polisher.

This product installs temporary surface protection that is short-lived in comparison to most other protective treatments in Presto's line. If a longer-lasting, protective treatment is desired, use a solvent wipe to remove the protective treatment in preparation for the **Metal Protector**.

## Warranties

The information provided by Presto for the safe and effective use of this product, and all of our products, is believed to be good and accurate. However, due to the many different possible applications of this product, careful considerations should be made when selecting its suitability for each surface. The information provided should never be substituted for individual testing to ensure the product's compatibility with each surface intended for use. The purchaser shall assume all responsibility for determining the suitability of this product. When used as intended, this product will perform as stated. No other warranty can be made for this product, verbally or written.

Presto warrants this product to be free from defects. In the event this product is found to be defective, we will provide a sufficient amount of product to replace the defective product.

### Green Synergy Product

Presto's Green Synergy Products work synergistically with each other to protect all surfaces of a building without damaging Presto's protective coatings. These products are designed to be the longest lasting protection available for preserving the appearance of buildings.

Green Synergy Products are designed so that they will not easily break down and leach degrading materials onto adjacent surfaces.

Green Synergy Products work to save you money. Our website features a 10-year Return on Investment graph comparing Presto's products against competitive options. More info: [Click Here](#)

## About Presto

Presto Restoration Products was created to implement higher performing technology, safer practices and products that provide a better return on investment to the building restoration and maintenance industry. Our expertise is researching and developing products and techniques to restore and preserve the magnificence of high-rise buildings built with architectural glass, metal and stone surfaces.

Presto strives to design products that comply with the Green Building Standards Act, which promotes better environmental standards for construction, rehabilitation and maintenance of buildings:

- Improve energy efficiency and increase generation of energy through renewable and clean energy technologies
- Increase the demand for environmentally preferable building materials, finishes and furnishings
- Improve the environment by decreasing the discharge of pollutants from buildings
- Create industry and public awareness of new technologies that can improve quality of life for building occupants

■ Improve the health and productivity of building occupants by meeting advanced criteria for indoor environmental quality

At Presto, we have mastered the art of balancing quality and compliance through our dedication to Building Product Synergy for a safer, greener environment.

Presto continues to perform extensive research, development and testing on various methods of commercial exterior restoration and preservation.

Product Availability
<b>EnviRestore Metal Stain Remover is available in the following sizes:</b>
1 Quart Bottle
12-Quart Case
<b>Other Items:</b>
White Synthetic Non-Abrasive Pad
EnviRestore MSR Foam Pad
Backer Pad
Microfiber Towels
